Subject STOP CN ACQUISITION!

I am beside myself with the ignorance people have of things right in their face. The CN acquisition it not is good for all... Well If our economic disaster is proof of an example of how the greed of few will destroy most and then the many shall pay, The acquisition by CN Railroad is the exact same situation and we, the tax payer, again will be forced to pay the price BUT WITHOUT GOVERNMENT HELP! What are people thinking? There are NO regulations now or in years to come. No guarantee of numbers on any rail line, even those supposedly lighten by the change. Communities will be destroyed and people don't see it. Big business greed wins again. What is the purpose of any legislation body if big business rules them? Please help us. Find the weak link in this. Expose them Please!!!.

Sincerely,

MRS. Wynn Ann Roggeveen
