Re: Columbus & Greenville Railway Company
Abandonment Exemption – Leflore County, MS
STB Docket No. AB-297 (Sub. No. 102X)
ENVIRONMENTAL ASSESSMENT

Officers at C&G have reviewed the captioned Environmental Assessment and have the following comments:

1. In the second paragraph under "Description of the Rail Line" there is an indication that no overhead traffic has moved over the segment of track to be abandoned for in excess of two years. While there has been no originated or terminated local traffic during that time period there was overhead traffic until the STB authorized C&G to operate over the bypass track in April, 2005. It was at that time that C&G rerouted its overhead carload movements to the bypass track.
2. Also under "Description of the Rail Line" in paragraphs 1 and 3 there are references to the City of "Greenville" that should be to the City of "Greenwood." The first reference is in Paragraph 1, line 3. The second reference is in Paragraph 3, line 12.

Please advise whether this is adequate contact on these observations. If a more formal filing through the Secretary's Office is necessary that will be made immediately upon your notification.
