To Whom it may concern:

I am opposed to this acquisition. The result of this buy-out will result in the slow lingering death of a very vibrant, growth oriented community. Unless the ^{many} concerns of this community are adequately addressed - Safety, emergency response times, dramatically increased traffic congestion, foundation damage to adjacent homes etc. I don't believe our government (city, state and National) should support it either.

However - knowing that Railroads and Commerce built this land I can't believe it will be held up. My only hope is that cool, reasoned minds will insist on the only viable solution - INSIST on Below Grade track. The cost will be higher but it is truly the only Rationale Solution!
