Message: I am a Willow resident. I oppose the Willow route because of its impact to important recreational trails in and around Willow and the impacts to Willow residents' properties.

The proposed willow route would cross 2 major salmon streams and thousand of acres of wet lands. i'm speaking on behalf of many Willow dog mushers who use the trail system for Iditarod training (trail would be destroyed by the rail line) and as a way of life. I please you to take this note in consideration for your decision making process. We do not want the line go through willow.

thank you very much for your time

sincerely, Sven and Andrea Haltmann
