Email Address: \* demboskix4@gci.net

Group/Affiliation:  
Message:

I am very concerned about the Rail Extension coming through Willow. The rail line is proposed to come through the winter moose grounds and will destroy the population there. It will cut across some of the most used lands in the area for Hunting, Established Trap Lines, Dog Mushing trails, Snow machine trails, Winter transport routes to the Bush. Take the Extension to Houston or big lake but bringing it to Willow is a huge mistake. Please have someone contact me!

Respectfully,  
Ben Demboski
