

Dear Friends and Neighbors:

Enclosed please find a copy of an article which appeared in the Town Crier regarding the Transrail site in Wilmington. If this transfer station is allowed to come into Wilmington it will be HORRIBLE to the entire town.

I urge you to take a moment to read the article. I am trying to enlist your help by writing a few words to the Surface Transportation Board expressing how this would harm our community. I have prepared a template letter and all you have to do is jot down a few words.

These letters must be received by the Board by May 12th so please take a moment and write to the Board. You may quote some of the issues in the newspaper article.

We have suffered enough with the contamination of the Olin Site. If this transrail station happens our home property values will drop dramatically. Do you want to live in an area where garbage and hazard waste is brought in and sorted!!!!!! If we let this happen, this company will NEVER leave and we will be sorting the trash for the communities surrounding Wilmington!

Pass the word and SAVE OUR TOWN!!!!
