Dear Ms. Phillis-Johnson-Ball

RE: finance docket 34391
I would like to register my rejection of this proposal.

Woburn doesn 't need any more proposals, recommendations, suggestions that are harmful to the City; we are inundated with them.

Tax revenues are necessary and helpful, but not at the cost of peace and quiet. That's where Woburn is right now, i.e., there is so much traffic now that we locals have to pick the right time to go shopping, all in the name of Progress. What a joke, who's progress?

So...again please reject the 34391 and many thanks for your assistance.

Charles Gourlis
long time woburn resident.
