Subject Fw: DM & E Draft SEIS - Request for Data

Vicki

Welcome Back!

I received this from B. Goodpaster regarding information needs for DM&E.

Subject DM & E Draft SEIS - Request for Data

Phyllis,

Thank you for your help in finding out how we could obtain the following information that we need to complete our analysis of the Draft SEIS for the DM&E rail project:

- 1) all inputs to and outputs from the coal module dealing with the prices and amounts of coal supplied from the various regions including, but not limited to, the following information by year: the first and second tier rates, the amounts of coal (of maximum amounts of coal) associated with each rate, the price of coal at the power river basin, the price of coal delivered to power plants in the Midwest;
- 2) a full set of NEMS input and output files for the scenarios analyzed by EIA for the Draft Supplemental Environmental Impact Statement, as well as the AEO 2005 "reference case" run.

We'd be expecting that these data could be provided in electronic format.

Thanks again and talk to you soon,

Beth Goodpaster

bgoodpaster@mncenter.org

sent Beth email on June 3 2005
with EIA contact info. (attached)

Called Beth later that day
to make sure that she received
the email. Left message on her
voice mail.
