Post Agreement Review: Final Report

Dear Ms. Cabot:

The Bureau for Historic Preservation (the State Historic Preservation Office) has reviewed the above named project in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended in 1980 and 1992, and the regulations (36 CFR Part 800) of the Advisory Council on Historic Preservation as revised in 1999 and 2004 and the Memorandum of Agreement for this project. These regulations require consideration of the project's potential effect upon both historic and archaeological resources.

We are in receipt of the final report for the above listed project. This report and the previously received historic bridge recordation documentation meets our standards. This completes the stipulations as outlined in the Memorandum of Agreement and consultation is complete for this project. We are, however, still interested in the final disposition of the land and bridges on the line to the local communities and the actions which might be taken that would affect their historic integrity.

If you need further information in this matter please consult Susan Zacher at (717) 783-9920.

Sincerely,

Douglas C. McLearn, Chief  
Division of Archaeology &  
Protection
