Dear Mr. Navecky,
 I met you at the Big Lake School during a "C" presentation.
 I am sure you probably do not remember everyone you have met. We discussed the following re: the Rail Spur
 1) I mentioned the fact that there is that erosion related problems and how they would affect R.R. maintenance.
 2) The area being almost all deep swamp land and a good chance of "sink holes"
 3) Water run off which would affect water fowl.
 4) Also that area further west would be a much better route.
 Hopefully this gets to you in time and you have time to read it. I have been out of state and apologize for the late arrival.
