Attn: Phillis Johnson-Ball

Deadline: November 30, 2003

(Please be as specific as possible)

What potential environmental issues and impacts are you concerned about?

I would like to see the railroad come through - there would be less traffic (coal-trucks) on the roads between Salina + (area). I feel it could also bring some economic growth for some of us also in the form of jobs. It would be less pollution for the few trains to haul all the freight out and save on all the emissions from diesel driving nonstop on the roadways.

I would like to see this happen soon because ~~it would be a shame~~ it will still take awhile to get everything in place to run.
Thank you Debra Jensen
