See attached message from Kathleen Kowal. This should resolve condition #4 in ordering paragraph #1 of the STB decision served on October 1, 2004. BNSF would like to consummate this abandonment in the very near future. Is there a formal decision that will be issued? If so, we may need to extend the consummation date, which is October 1, 2005. Thanks.

John

John,

Per our conversation of this date, the U.S. EPA has no further concerns or comments on the above-referenced abandonment.
Kathy
