There would virtually be a road block going west.
 Emergency services severely affected.
 High school is in very near proximity.
 Noise Pollution is already high - I live 2 miles from town and can be heard from there.
 Businesses would be non-existent in the center of town.
 Toxic waste and materials being transported are a danger with the increase of traffic.
 There are rare environmental species in the marshes and savannas that are close to the track. Increase in number of tracks and traffic would severely impact those and the dying prairies.
 Too many crossings affected! It is already a traffic nightmare.

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.

YOUR INPUT IS IMPORTANT!

Comments provided by the public help determine the scope of the environmental review.
