

E1-3094

Washington State Department of Transportation

Surface Transportation Board

# Northern Columbia Basin Railroad Project

Grant County International Airport  
Thursday, July 19, 2007, 4 - 7 PM

The Surface Transportation Board, which has jurisdiction over freight rail construction, and the Washington State Department of Transportation are jointly leading the required environmental review of a proposed rail construction project in the Moses Lake area, called the Northern Columbia Basin Railroad Project. The Port of Moses Lake has proposed this project to encourage economic development and the continued use and preservation of rail in the region.

Your comments on the alternative alignments and possible environmental and community impacts of the project will be valuable input for the environmental analysis. Please leave your comments with us tonight or send them to Elizabeth Phinney, Rail Environmental Manager, by email, phinnee@wsdot.wa.gov, by fax, (360) 705-6821, or by mail, WA St. Dept. of Transportation, Freight Systems Division, PO Box 47407, Olympia, WA 98504-7407 by Thursday, August 9, 2007.

### Please tell us what you think

I think the Railroad should be to the north 2 or 3 miles out of town for safety reasons and tie in with track going to the Port of Moses Lake.

I am not against the Railroad I think the crossing of Road L and Wheeler Rd. is going to tie up traffic

(If you need more space, please turn the page over.)

To add your name to the mailing list, please tell us the following:

Name Odell D. Crittenenden

Address PO Box 1139 1461 Fairway Dr.

City, State, Zip code Moses Lake, WA 98837
