Message: Are concern is will the proposed rail line be placed in the right away or will the railroad require additional land. Our property is on Point MacKenzie road and the proposed Mac east line would run the entire lenght of the property. We alaready have a 250 easment at the front of the Property. It is our plans to build a building to house up to 40 people who are receiving substance abuse treatment on the property within the next few years. The railroad Mac East plan would effect the placement of this building. At the present time the building was to be placed at the front of the property, however, if the Mac East line is selected, then we would have to build the building further back on the property. Our property is tract 19B, which was purchased from the state of alaska in Novmeber 2002.
