RE: Proposed rail line application in Liberty County, Texas

Dear Ms. Wesch-Schulze:

We have received a letter and map from Victoria Rutson with the Surface Transportation Board dated November 8, 2007 concerning a proposed rail line in Liberty County, Texas. Upon review of the map, it does appear that the proposed rail line will intersect Permanent School Fund (PSF) property on the west side of tract MF-18734 located in the Wm J. Colegrove Survey in Liberty County, Texas.

In accordance with General Land Office (GLO) procedures, application for a right-of-way easement will have to be made to the GLO prior to the project. An application has been enclosed with this letter. Also, please be aware there are four active pipeline easements occurring on this tract, and the projected course of the rail line project will have to be coordinated with the existing easements already in place on the property.

If you should require additional information, please contact Ned Polk, Director of Uplands and Coastal Leasing, at (512) 463-5030 or by email at ned.polk@glo.state.tx.us.

Sincerely,

A handwritten signature in cursive script that reads "Jerry Patterson".
