Subject STB Report Reviews

History:

← This message has been replied to.

Cathy Glidden at the Surface Transportation Board asked that I forward the attached message to you on her behalf. The message is a reminder regarding the review period for providing comments on several archaeological survey reports that you should have received from STB over the past several months.

Included with this email are reviewer forms that you may find useful for providing comments to STB. A separate form is provided for each report, and each form includes a summary list of the resources and recommendations presented in that report. There are spaces on the form to provide recommendations on National Register eligibility or the need for additional evaluation and to identify additional locations where undocumented resources may exist. Instructions are included for completing and submitting the form to STB.

If you have any questions about this message or the report review process, please feel free to contact Cathy Glidden by phone (202-245-0293) or email Catherine.Glidden@stb.dot.gov
